

Cabinet Making

MSF31113 Certificate III in Cabinet Making

Why Choose NEVC for your Apprentice Training Needs?

- **Customised to your business needs**

Apprentice training and assessment can be flexible and tailored to individual or business needs, built to the way the employer wants. There are a large selection of elective units to choose from, subject to tasks undertaken in individual workplaces.

- **Purpose built off-job facilities**

While much of our cabinet making apprentice training is delivered in the workplace, our training facilities include two fully operational construction workshops, which allows for aspects of the training to be delivered at our site, in a simulated workplace environment.

- **No ongoing training fees**

Tuition Fees will be covered in full by the Construction Industry Training Board (CITB) Tuition Funding* (this will be reviewed on an annual basis). **subject to eligibility*

In addition, there are no fees charged for text books – saving approx. \$175.

- **Trainers are highly experienced**

Our trainers are all qualified workplace trainers/assessors as well as being qualified tradespersons. They include several licenced builders and a finalist in the 2010 Minister's Awards for Excellence, for commitment to Australian Apprenticeships.

- **Comprehensive RPL Process**

Our trainers are committed to recognising an individual's industry knowledge and experience.

Depending on an individual's ability, and their exposure to industry, there is the ability to fast-track many aspects of the training, subject to employer approval.

- **Rolling Intakes**

Apprentice training can start at any time throughout the year – no need to wait for a new semester to begin.

- **Free White Card training**

The Construction Industry Safety Induction Course (White Card) is provided free of charge to all eligible apprentices.

This course is subsidised by the Government of South Australia for eligible participants, visit www.skills.sa.gov.au for Participant Eligibility Criteria.

...we care about outcomes for Apprentices, Employers and the Building Industry
