

Cabinet Making

MSF30322 - Certificate III in Cabinet Making and Timber Technology

Why Choose NEVC for your Apprentice Training Needs?

- **Customised to your business needs**

Apprentice training and assessment can be flexible and tailored to individual or business needs, built to the way the employer wants. There are a large selection of elective units to choose from, subject to tasks undertaken in individual workplaces.

- **Purpose built off-job facilities**

While much of our cabinet making apprentice training is delivered in the workplace, our training facilities include two fully operational construction workshops, which allows for aspects of the training to be delivered at our site, in a simulated workplace environment.

- **Low training fees**

Tuition Fees are capped at \$1,200 for the life of the Training Contract. This ensures that they are no greater than what the employer is eligible for from the Construction Industry Training Board (CITB), for the Tuition Fees portion of their Apprentice Training Support (ATS) funding.

In addition, there are no fees charged for textbooks – saving approx. \$175.

- **Trainers are highly experienced**

Our trainers are all qualified workplace trainers/assessors as well as being qualified tradespersons. They include several licenced builders and a finalist in the 2010 Minister's Awards for Excellence, for commitment to Australian Apprenticeships.

- **Comprehensive RPL Process**

Our trainers are committed to recognising an individual's industry knowledge and experience.

Depending on an individual's ability, and their exposure to industry, there is the ability to fast-track many aspects of the training, subject to employer approval.

- **Rolling Intakes**

Apprentice training can start at any time throughout the year – no need to wait for a new semester to begin.

- **Free White Card training**

The Construction Industry Safety Induction Course (White Card) is provided free of charge to all eligible apprentices.

This course is subsidised by the Government of South Australia for eligible participants, visit www.skills.sa.gov.au for Participant Eligibility Criteria.

...we care about outcomes for Apprentices, Employers and the Building Industry

Apprenticeship Training Plan (Sample)

Workers with this qualification have tradesperson-level skills in the manufacture and/or installation of products, including furniture and cabinetry, made from timber and other materials.

They have core skills in tool use, measuring, drawing (including computer-aided design), interpreting work documentation, preparing cutting lists, communication, teamwork, and safe and environmentally sustainable work practices. They may have specialised skills in wood machining, cabinet and furniture making, kitchen and bathroom construction and installation, marine cabinetry, coopering or drafting.

MSF30322 - Certificate III in Cabinet Making and Timber Technology		
<i>(for contracts in excess of 12 months, electives may be negotiated after the core units have been completed or further into the contract to enable apprentices to pursue developing interests)</i>		
Unit Code	Unit Title	Nominal Hours
Core Units (8 required)		
MSFFM2013	Use furniture making hand and power tools	40
MSFFM3030	Produce manual and computer-aided production drawings	60
MSFFM3031	Prepare cutting lists from design and production documentation	16
MSFGN2001	Make measurements and calculations	30
MSFGN3005	Read and interpret work documents	24
MSMENV272	Participate in environmentally sustainable work practices	30
MSMSUP102	Communicate in the workplace	20
MSMSUP106	Work in a team	30
Electives (17 required)		
MSFFF2012	Prepare surfaces for finishing	24
MSFFM2018	Operate basic static machines safely	56
MSFFM3026	Produce angled and curved components using manufactured board	64
MSFFM3029	Select timbers for furniture production	8
MSFFM3041	Determine and document requirements for cabinetry installation	48
MSFFM3042	Fabricate cabinetry	80
MSFFM3043	Install cabinetry	50
MSFFM3045	Set up, operate and maintain computer numerically controlled (CNC) machining and processing centres	80
MSFKB2003	Prepare for cabinetry installation	12
MSFKB3012	Plan kitchen and bathroom projects	80
MSFFDM4009	Match furnishing style and materials to customer requirements	24
MSFFM2014	Select and apply hardware	16
MSFFM2019	Assemble furnishing products	20
BSBOPS304	Deliver and monitor a service to customers	35
MSFGN3006	Estimate and cost job	16
TLID0021	Store and handle dangerous goods and hazardous substances	40
CPCWHS1001	Prepare to work safely in the construction industry	6
Total		909
